

Javelina 100

October, 356 and Arizona have meant the running of the Annual Javelina 100 to the Arizona Outlaws for the past nine years. 2004 was no exception. The route was a virtual repeat of the 2002 event which began in Prescott and concluded at the historic La Posada railroad hotel in Winslow.

The festivities began poolside in Prescott with the Warm-up Party and Registration. Event shirts were handed out and hellos exchanged. With beer and chips in hand I was asked the usual, "How many cars are coming?" Proudly I announced that 46 cars had registered from seven states with Jim Learmonth driving over one thousand miles from Texas, one way just to go on a 200 mile tour with the Outlaws. Now that's

'Keeping the Faith!' and it's not the first time Jim has done so. Also represented were the states New Mexico, Colorado, California, North Carolina and Florida.

Saturday was a crisp Fall morning with abundant Arizona sunshine. Cars filed out of Prescott down

the twisty White Spar mountain roads. White knuckles eased as we passed through Skull Valley on our way to the top of Mingus Mountain at 7,000 feet. Descending into Cornville we gathered for lunch at Babe's Roundup in Camp Verde. With western vittles being dished out, we dined under wanted posters of real Outlaws, while our beloved

356s adorned the grassy corral below. A drive out of the Verde Valley and on to Winslow to the La Posada Hotel was the last leg on our two hundred mile journey.

The 'Wind-Down Party' took place in front of the large stone fireplace of the Big Room shortly after all had checked into their Southwestern rooms. Libations and tall tales from the road filled the room. Awards were given for Worst Tires - Chuck House, Most in need of Wax - Dave Stinchcomb, Biggest Bug Splat - Bill Kaltenbach and Best drawing using Crayons and a Paper Bag - Joe Almers and his '356 in a Garage'.

Think about joining the Outlaws for a run sometime. We've got some great two lane roads, good weather and some great scenery. 2005 will be the 10th Anniversary of the Javelina and I'm planning on making the Grand Canyon the destination. So, keep a spot open in early October to drive your 356 in Arizona. **Mike Wroughton**

Steeds at rest while the outlaws chow down in Camp Verde.
