

**C**elebration of the 50th anniversary of "Porsche the car company" and the 356 Baja Fiesta began in Tucson with the traditional Friday evening warm up party, registration and dinner. However that is were tradition stopped. Dennis and Barb Crowley had in store an evening driving tune up for the Arizona Outlaws at the local go-kart track. Outlaws were presented custom hand made hats for the coupes and open car teams. Soon these little full bodied karts on the slick concrete oval track provided way to much fun. After all had their fill of bangs and sore muscles the biggest smile was awarded to Terry. Pulling the trigger for the Hardest Hit and Andretti aggressive driver award, was resident Steve Proctor. In the saddle Bob Poister won the Peoples choice Hero Driver award hands down. Driving like an Outlaw Wannabe was local PCA member Bill Gose, who won a collectable Dave Coburn-designed 356 Baja Fiesta t-shirt.

Saturday dawned inviting a spectacular drive up to Kitt Peak, seven thousand feet above the Sonoran desert floor. Learning of the mountains sacred Indian heritage and the tour of the four meter telescope was impressive. The 356's then headed down south through Arivaca and onto lunch on the Patio at Tubac Country Club. The afternoon drive was open

to several optional destinations. The most popular was the cold war history story of the Titan Missile silo.

The Outlaws were welcomed at the Bio Rico resort only a few miles north of the Mexican boarder. Winding down poolside brought out some of the best bench racing of the day. The evening banquet buffet was delightful and delicious.

Getting the old cars out for a Baja adventure in early spring is one of the true treats enjoyed by the Arizona Outlaws.

## ALL GERMAN 356 PORSCHE SALE!
